SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures:

Following inhalation:	If affected, remove to fresh air. Get medical attention if symptoms occur.
Following skin contact:	Wash the affected area thoroughly with plenty of soap and water. Get medical attention if symptoms occur.
Following eye contact:	Any material that contacts the eye should be washed out immediately with water. Get medical attention if symptoms occur.
Following Ingestion:	Get medical attention if symptoms occur.
Self protection of the first aider:	Wear proper personal protective clothing and equipment.

4.2 Most important symptoms and effects, both acute and delayed

Irritation. Pre-existing skin problems may be aggravated by prolonged or repeated contact. See Section 11 for additional information.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: FIRE FIGHTING MEASURES

5.1 Extinguishing media:	Suitable extinguishing media: Use water spray, ABC dry chemical, foam or carbon dioxide. Water or foam may cause frothing. Use water to keep fire-exposed containers cool. Water spray may be used to flush spills away from exposures.
5.2 Special hazards arising from the substance or mixture:	Hazardous combustion products: Irritating or toxic substances may be emitted upon burning, combustion or decomposition. See section 10 (10.6 Hazardous decomposition products) for additional information.
5.3 Advice for fire-fighters:	Wear self-contained breathing apparatus (SCBA) equipped with a full facepiece and operated in a pressure-demand mode (or other positive pressure mode) and approved protective clothing. Personnel without suitable respiratory protection must leave the area to prevent significant exposure to hazardous gases from combustion, burning or decomposition. In an enclosed or poorly ventilated area, wear SCBA during cleanup immediately after a fire as well as during the attack phase of firefighting operations. See Section 9 for additional information.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures	
6.1.1 For non-emergency personnel	Protective equipment: See Section 8 for recommendations on the use of personal protective equipment. If spilled in an enclosed area, ventilate. Eliminate ignition sources.
6.1.2 For emergency responders	
6.2 Environmental precautions:	Do not flush liquid into public sewer, water systems or surface waters.
6.3 Methods and material for containment and cleaning up	
6.3.1 For containment:	Contain by diking with sand, earth or other non-combustible material.
6.3.2 For cleaning up:	Absorb spill with an inert material. Place into labelled, closed container; store in safe location to await disposal. Change contaminated clothing and laundry before reuse.
6.3.3 Other information:	Wear proper personal protective clothing and equipment. Spillage may cause slippery conditions (especially when wet).
6.4 Reference to other sections	Refer to Section 8 for personal protective equipment.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling:	As with any chemical product, use good workplace procedures. Do not cut, puncture, or weld on or near the container. Wash thoroughly after handling this product. Always wash up before eating, smoking or using the facilities. Use under well-ventilated conditions. Avoid eye contact. Avoid repeated or prolonged skin contact. Avoid inhalation of aerosol, mist, spray, fume or vapour. Avoid drinking, tasting, swallowing, or ingesting this product. Wash contaminated clothing before reuse. Provide eyewash fountains and safety showers in the work area.
7.2 Conditions for safe storage, including any incompatibilities:	Store cool and dry, under well-ventilated conditions. Store this material away from incompatible substances (see Section 10). Store product where temperatures are between 4°C-38°C (40°F-100°F). Do not allow product to freeze. Do not store in open, unlabelled or mislabelled containers. Keep container closed when not in use. Empty container contains residual product which may exhibit hazards of product. Do not reuse empty container without commercial cleaning or reconditioning.
