

FERM-ZN PLUS

YEAST NUTRIENT

FERM-ZN PLUS delivers a high concentration of easily absorbable yeast-bound zinc. Helps with viability, accelerates fermentation, reduces off-flavors, and increases attenuation.

NET WEIGHT 1kg | 2.2 lbs

DOSE: 0.6–1.2 g/bbl (0.5–1.0 g/hL, 0.019–0.038 g/gal, 5–10 mg/L), adjust based on wort gravity and additional yeast stress factors. **PREPARATION:** Dissolve in sterile water prior to use. **ADDITION:** Add during the final 10–15 minutes of boil, or directly to sterile wort at pitch. **INGREDIENTS:** Yeast Extract, Zinc Compound (yeast-bound, 5.5–6.5% Zn). **STORAGE:** Sealed in a cool, dry place. **ALLERGEN INFORMATION:** Contains no declared allergens. **USAGE:** For use in brewing and fermentation only. Not for direct consumption.
