Generate your own Aqueous Ozone on site using the revolutionary **\$925 STERI-SPRAY PRO** with our Mistng Spray and an adjustable Jet Spray

Why Cannabis Growers Love Aqueous Ozone

- Aqueous Ozone is a highly effective, fast acting, chemical free sanitizer. It's safer and more powerful than all chemical alternatives.
- Eliminates powdery mildew, fungi, bacteria, molds, viruses, yeast, biofilm, aspergillus spores, botrytis, bacillus and much more.
- Our misting spray prevents spider mites and bud rot from developing.

Important Benefits

- Chemicals leave residues that promote microbial growth, bind to organic material, and provide a nutrient source for biofilm bacteria.
- Aqueous Ozone reverts to pure water after disinfection with no chemical residue and no microbial contamination.

This lets growers fly through State Inspections.

- We have certified lab. tests showing that Aqueous Ozone kills 99.999% bacteria in just 10 seconds.

Steri-Spray Pro's Advanced Features

- **Unbeatable Advantage** – Aqueous Ozone is FREE. Growers can increase profits and cut expenses.
- **Safe to Operate** – Steri-Spray Pro's Aqueous Ozone is OSHA Compliant with no off gas emission.
- **Avoid Toxic Chemicals** – Eliminates the need for harsh costly chemical disinfectants and fungicides containing harmful fumes and toxic residues.
- **Multiple Applications** – Sanitize all surfaces, post-harvest equipment and trimming tools.
